The Bio Designer’s Manifesto

Down with inanimate objects!
Up with more animate objects!

1. All physical objects are living organisms. They establish a dialogue that blurs differences between the man made & the natural.

2. Down with self contained objects. All objects are in constant flux of each other. They merge, elaborate and form fluxual relationships. Bodies separate and contained within themselves are virtual.

3. Mutation is surfaced with ornamentation. Ornamentation establishes identities. Physical objects have needs to seduce. They are manifestations of the skin. The skin desires to relate to other organisms.

4. All life forms are all constructs of textual information.
